## EVENT

All categories will follow the World Cup format.

Meaning that there will be only one first qualifying round for all riders with the first 4 directly qualifying for the final rounds.

There will then be a bracket race for those yet to qualify. Then, riders will need to finish in the top 2 to qualify for the finals.

From the final stages, start positions will be drawn randomly by choosing a card on a tablet, in the order of the riders on the race sheet.

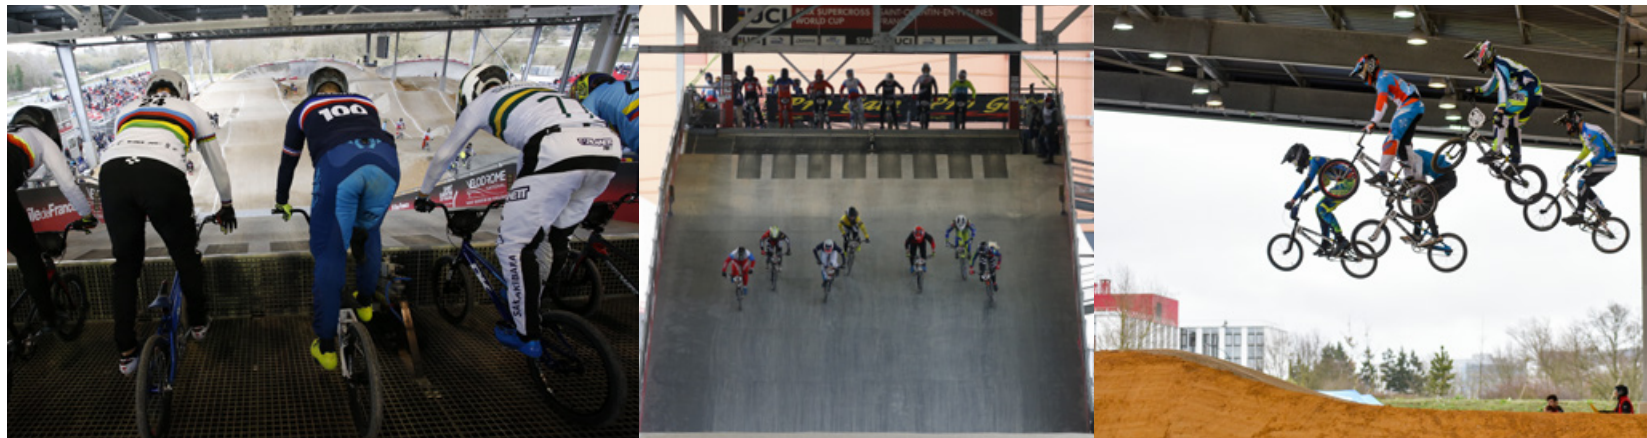

All riders will have a transponder on their bikes to facilitate the race organisers. These will be available to pick up from the enclosure of the BMX stadium prior to the competitions. After a rider is eliminated, they will have to return the transponder before being able to exit the enclosure with their bike.

Side and face plates are compulsory for all riders.

Video judging will be set up on the day of the competition. The rules will remain the same as for each of the other competitions. However, video judging will be used to confirm or reverse decisions to avoid any human error.

A challenge can also come directly from video judging.

There will be a Youtube livestream of the event and party, and about Facebook BMXProSeries. The link for this will be published on the Pro Series event page a few days in advance.
